

CHAPTER-1

PROBLEM DEFINITION

1. INTRODUCTION:

Our project report is on designing a “HOSPITAL WEBSITE”. The name of our hospital is “CARE PLUS Hospital”. For the welfare of the people, the hospital website is designed in a very user friendly way. The website intends to provide a very dynamic and an interactive environment to all the visitors. The cover page itself has the site map of the hospital, so that people can get the exact location of the hospital, which would help them in reaching the hospital in case of any emergency. The website provides all the information regarding infrastructure, departments, the management structure and the functioning of the hospital. The website not only gives details about the hospital, but it also provides the customers with the information and details of all our branches in different cities. The facilities regarding the online registration are also provided i.e. patient’s can register online and can keep a track of their reports with the help of username and password. The website provides the customer with the entire profile of the doctors working in the hospital currently and helps the customers to fix their appointments with them online itself. The customers can fix the appointments with subject to their requirements and as per the availability. Also the customer’s can avail the various schemes which are introduced to them through website such as special discounts for blood donors, etc. The website supports online payment systems with the help of credit and debit cards. This way the customers can be free from the stress regarding the cash payments. The website provides the customers with links to different social networking sites such as FACEBOOK, TWITTER, etc. This helps the customer to be in touch of our organisation and can be updated about our new and improved services rendered.

1.1 PROBLEMS IN EXISTING SYSTEM:

1) Lack of security:

Since data is stored in files that are freely available to anyone so, information can fall into the wrong hands which can be used negatively against the company.

2) Too much paper work:

Records are maintained on papers and every detail is written down manually and this leads too much of paper work.

3) Space consuming:

Data on papers is stored in cabinets which require storage space. So, as the amount of work done on paper increases, the requirement of storage space in cabinets too increases.

4) Data duplication:

The same data gets repeated over and over since the workers find it hard to keep track of the documents, information and transactions.

5) Slow retrieval of data:

The information of customers and other details are stored in different places so, it takes a long time to retrieve the data.

1.2 OBJECTIVES OF THE PROPOSED SYSTEM:

1. To make the users aware about the various kinds of diseases and their precautions.
2. To make it user -friendly for the patients as they can go for “online appointment” with the doctor and helps them to communicate with the other departments of the hospital.

3. To make people aware about the “specialist” doctors available in our hospital and their timings.
4. To get an online report with the help of username and password.
5. To introduce the patients to our hospital and its services and infrastructure.
6. In case of emergency, provisions regarding online booking of beds, ICU facility can be made.
7. It helps to obtain user- friendly feedback.

2. DATA COLLECTION:

1. <http://chennai.apollohospitals.com/facilities-at-apollo>

Apollo Hospitals is the leading super speciality hospital in Chennai, India. Apollo Hospitals Group's service offerings include healthcare at the patient's doorstep, clinical & diagnostic services, medical business process outsourcing, third party administration services and health insurance. Information regarding the various facilities provided at hospital has been taken from this website.

2. <http://www.waranahealth.com/health-schemes-available-at-mahatma-gandhi-hospital.aspx>

Mahatma Gandhi hospital is a charitable hospital which aims at providing common people costly and expensive services at an affordable price. This hospital has introduced many health schemes for people to aid the services. Information regarding the various health schemes available at hospital has been taken from this website.

3. <http://www.ednahospital.org/hospital-mission/hospital-objectives/>

Edna Adan Maternity Hospital in Somaliland is a non-profit organisation partly supported by a range of governmental and non-governmental international organizations. Assistance regarding the various objectives of designing a hospital website has been from this website.

3. CONTRIBUTION OF TEAM MEMBERS IN SOFTWARE

DEVELOPMENT:

<u>NAME OF THE MEMBERS</u>	<u>JOB DONE</u>
SRISHTI CHOUDHARY	Database design, System Analysis
ANMOL BHARARA	System analysis, Database Design
RASLEEN AHLUWALIA	Coding and Implementation, Database Design
PARTH BHATT	System Analysis, Database Design

Table no.1.1: job done by team members.

<p>

CARE PLUS Hospitals is one of the fastest growing chain of hospitals in India, engaged in providing primary as well as tertiary healthcare services, with a difference. It is a hospital chain that is founded and managed by professionals with a mission and a passion for providing healthcare for the needy. At CARE PLUS, the growth has been phenomenal.

</p>

<p>

CARE PLUS has become a multi-specialty hospital chain comprising of 1600 beds across 9 hospitals.

</P>

<P>

CARE PLUS'S reputation for its humanitarian and selfless service has ranked this esteemed institution as the fourth largest healthcare provider in India (CRIS-INFAC report, 2006). Our effort to provide quality health care with compassion has rewarded us with the honor of being the top healthcare provider in DELHI. With the service-oriented Healthcare delivery model, CARE PLUS is geared to provide cost effective and user friendly medication. Despite the intense competition and intense marketing tactics employed by multiple commercial corporate organizations, CARE PLUS has carved a niche for itself by garnering the best reputation amongst the local masses.

</p>

<p>

CARE PLUS Hospital is committed to practicing at the leading edge of medicine. While neurology, cardiology and osteopathy will remain the critical centre given the need of this region - We shall offer best services in other specialities. We have the best diagnostic and treatment facilities aimed at ensuring medical excellence.

</p>

<p>

Care Plus is committed to continually addressing each and every aspect of patient care, from initial consultation, diagnosis, and treatment, through recovery.

</p>

<h4> Awards and Achievements </h4>

Excellence, literally meaning unparalleled superiority, is the quintessence of Apollo Hospitals, India. This is reflected in many areas - be it infrastructure, technology or services or in the caliber and brilliance of our medical fraternity. Presented below are some of our achievements :

 Dr. Prathap C Reddy, Chairman Care Plus Hospitals Group was honored with the "Lifetime Achievement" Award at the Managing India Awards 2012, by AIMA - All India Management Association.

 Dr. Prathap C Reddy, Chairman, Care Plus Hospitals Group, was conferred with the "Lifetime Achievement Award" by the Federation of Indian Chambers of Commerce and Industry, in September, 2011.

 The Care Plus Group of Hospitals was ranked high in many categories of The WEEK Research Survey of Best Hospitals in India, 2011.

5. VISION AND MISSION

CARE PLUS

24 HOUR HELPLINE 18001800

OUR VISION

- To evolve as a unique university-based health centre where the quest for new knowledge would continuously yield more effective and more compassionate care for all.
- To nurture a new generation of professionals of life-long commitment, dedication, knowledge, skills, wisdom and values.
- To strive for public trust and maintain medicine's humane and noble place among professions.

OUR MISSION

At CARE PLUS, our mission is more than just a statement, it's the cornerstone of all our efforts:

"To provide the best and cost-effective care, accessible to every patient, through integrated clinical practice, education and research, delivered with compassion, care and commitment through team spirit and transparency."

 Non Surgical Neurological Services :

 Management of headaches and dementia

 Management of Neuromuscular disorders

 Management of Infections and demyelation

 Stroke Management and rehabilitation

 Management of epilepsy, Parkinson's disease, Movement disorders, Alzheimers disease and sleep disorders

 Brain Surgical Services :

 Microsurgery for brain tumors

 Endoscopic brain surgery

 Skull Base, brain trauma surgery

 Cranofacial surgery with FMS (Facio-Maxillary Surgery)

 Brain Surgery for epilepsy

 Interventional/ Neuro-Endovascular therapy for Cerebro-vascular diseases and tumors

 All other major brain surgeries

 Spine Surgical Services :

 Management of Lumbar and Cervical Spondylosis

 Minimal access (Microscopic/ Endoscopic Surgeries) for cervical and lumbar disc prolapsed, including disc replacement.

 Instrumented Anterior and Posterior fusion for

 Spondylosis

 Spine trauma

 Spine and spinal cord tumor

 Spinal deformity correction

<h2> Heart Care </h2>

<p>

Care Plus Hospitals has earned the reputation of being a leader in heart care in the country. The proficiency, precision and skill of our cardiac services demonstrate our pioneering contributions in this field. In our yesteryears, this included the world's first conscious off pump coronary artery bypass surgery. We aspire to lead and continue to be the most desired destination for patients not just in India but also from across the world. Care Plus Hospitals has successfully treated thousands of heart patients and successfully performed a number of cardiac procedures and surgeries.

</p>

<p>

Our Cardiac team is strengthened by an accomplished full time and visiting team of over 50 cardiologists and cardiac surgeons who provide excellence in all our hospitals.

</p>

SERVICES :

<u> ADULT CARDIOLOGY AND CARDIAC SERVICES </u>

 Interventional Cardiac Procedures :

 Coronary Angiography, Angioplasty and Stenting

 Angiography and Angioplasty of neck, leg, arm and kidney

 EP study Diagnostic and Ablation

 Permanent Pacemaker(single and double chamber)

 Heart Failure Device and AICD implantation

 Valvuloplasty

 ASD, VSD , PDA device closure

 ASD, VSD , PDA device closure

 Cardiothoracic and vascular surgery procedures :

 Coronary Artery Bypass Graft Surgery (CABG Surgery)

 Off pump bypass surgeries(almost all the bypass surgeries are done off pump)

 Valve surgeries

 Awake heart surgeries (on or off pump cardiac surgeries under high thoracic epidural without sensational anesthesia)

 Surgery for heart failure

<u> PEDIATRIC CARDIOLOGY AND CARDIAC SURGERY </u>

 Pediatric cardiology :

 Balloon pulmonary valvotomy (BPV)

 Device closure of ASD, VSD,PDA

 Embolisation of MAPCA

 Pediatric Cardiac Surgery :

 The entire gamut of cardiac diseases from newborn to adolescent

 Dedicated operating rooms and post-operative ICUs with state-of-the-art equipment and experienced staff round the clock to provide continuous, excellent care

 Procedures performed :

 Closed heart surgeries like BT shunt, PDA interception, BD Glenn Shunt

 Simple open heart surgeries, like ASD closure and VSD closure

 Complex open heart surgeries, like intra cardiac repairs, Artrial switch operation, double switch operation, Resfelli operation, etc

 Valve repairs, replacements, ROSS procedure

 ECMO facility

```

<h2> Bone & Joint Care </h2>

<p>

Bone and joint care is one of our core specialties. The bone and joint program at Care Plus Hospital makes it a centre for excellence in orthopedics with highly skilled clinical expertise. Our Hospitals provide cutting-edge diagnostic and operating facilities such as computerized navigation, imaging and treatment in orthopedics. This helps in accurate fixation of implants and joint replacement. A comprehensive support of Rheumatology Services makes it a complete program. Application of Minimal Access Surgery minimizes the extensive drawbacks of surgery, reducing hospital stay, blood transfusion and results in faster recovery.

</p>

SERVICES :

 Total Knee Replacement :

 Unicondylar Knee replacement (which requires only a small incision and assures rapid recovery)

 Hi-flex knees (where the patient can comfortably move and squat normally, which is not possible in conventional knee replacements)

 Failed or revision joint replacement

 Infected joint replacement

 Extra corporeal irradiation and total joint replacement

 Total Hip Replacement :

 Cementless total hip replacement (less complicated in terms of fixation of prosthesis)

 Hip Resurfacing / Surface replacement arthroplasty

 Cementless bipolar / partial hip replacement in elderly with fracture neck femur

 Shoulder replacement

 Revision joint replacement- for people whose earlier replacements have failed

 Pediatric Orthopedics :

 Congenital deformities – club feet, dislocated hips, etc.

 Cerebral palsy with gate analysis & management, contractures treatment through surgery and botox injection

 Polio (surgeries, deformity correction, Orthotic acid prescriptions)

 Sports Medicine

 Knee Arthroscopy – ACL reconstructions and Menisectomy

 Rheumatology Services

 Management of inflammatory joint diseases

 Management of chronic pain

 Management of Osteoporosis

 Management of Complex connective tissue

 Complex Trauma Services :

 High velocity trauma services

 Failed trauma services and neglected trauma services

 Acetabular fracture fixation

 Orthopedic Oncology :

 Large experience in custom made prosthesis

 Extra corporeal irradiation and re-implantation followed by joint replacement

 Reconstructive surgery

 Joint replacement

We also offer a comprehensive orthopedic rehabilitation program.

15. ADMISSION PROCEDURE

CARE PLUS

24 HOUR HELPLINE 18001800

Admission

Patients are admitted to the hospital as per the recommendation of a doctor. All patients are admitted in the hospital under a team of doctors.

- 50% of the hospital beds are earmarked for general patients, where care is subsidised by the hospital.
- 50% beds are in the private wards.

All patients are required to see the Reception to get an idea about the approximate charges for different services and also to understand the routine formalities such as admission, discharge etc.

All patients will be required to pay an advance as specified by the Receptionist at the time of admission. Payment can be done through cash as well as there is a facility of online payment also. Personal cheques are accepted only with the permission from the management.

<h2> Accomodation </h2>

<p>

Even the most 'cost sensitive' traveler can afford the first class service and luxury amenities at our Hospitals. We have centralised air-conditioned general and private rooms equipped with everything to make you comfortable including room service for food and laundry.

</p>

<u>

<h4> Rooms </h4> </u>

 Suites- Well furnished and fully air-conditioned rooms. There are separate cots for the patient and companion, a television & DVD player, couch, telephone, refrigerator, computer with high speed internet.

 General Category Rooms- Spacious air-conditioned rooms with separate cots for the patient and companion, a television & DVD player, couch, telephone, refrigerator, computer with high speed internet.

Deluxe Rooms and Single Rooms are also available.

 <u>

<h4> Personalized Care </h4> </u>

Personalized care by nursing and clinical staff.

Complete privacy & confidentiality is maintained.

To make the patients feel at home, our staff celebrate birthdays, wedding anniversaries, festivals etc. The doctors, nurses, administrative and support staff also become a part of these celebrations.

 <u>

<h4> Religious preferences </h4> </u>

Providing isolation for Jews on Fridays (if asked for).

Specially made food for patients belonging to the Jain religion.

Facilitating prayer service for the patient/companion

Understanding the special needs of the Islamic community: Individual prayer mats in the rooms for daily namaz and a dietary program that takes into account individual preferences with necessary approvals from the treating medical consultant.
